

## 1. Overview

In this digital age where communities are formed online, we need to be part of the conversation so we encourage our use of social media platforms like Facebook, Twitter and Instagram. Social media offers a great number of opportunities for the church, such as increasing communication, building relationships and community, providing opportunities for participation, collaboration and feedback, enhancing learning and generating ideas and reaching and connecting with new groups. There are also risks involved such as forming inappropriate relationships, saying things you should not, breaching confidentiality and spreading gossip, bullying, harassment, grooming and impersonation.
